

The Human Element

THE HUMAN ELEMENT is our approach to building strong, sustainable cultures. It recognizes 8 focus areas necessary for achieving productive operations.

These areas of focus are:

- Vision and values
- Recruiting, hiring, and onboarding
- Established safety program
- Systems and processes
- Human resource development
- Training
- Contractor management
- Sustainability

The program outlines 8 human elements where our actions as humans have profound impact on safety for ourselves and others.

This training takes an in-depth look at all 8 human elements impacting safety leaders on a daily basis.

Our Approach

ENCOURAGES personal responsibility for safety

LEVERAGES natural human elements for a personalized approach

RECOGNIZES people as your greatest asset

PROMOTES a sustainable safety culture

EQUIPS leaders with necessary skillsets to succeed in this new environment

PERMEATES personal safety throughout organization

INCREASES SAFETY AWARENESS of the lone worker
